Covid Program Update

The Frankfort Park District is aware of the injunction regarding the Governors Mask Mandate for K-12 Students. The Park District Board and staff have been working diligently to work with within the mandates and to provide a safe environment for our participants and staff.

The K-12 mask mandate that was part of the lawsuit was for schools governed by the Illinois State Board of Education. The Frankfort Park District Preschool programs are not part of the Governors school mandate. However, the preschool program and all park district participants that attend indoor programs are and continue to be required to wear a mask per the IL Mandate that requires masks to be worn inside by all individuals over the age of 2 regardless of vaccine status. Masks continue to be required for park district preschool participants and all program participants and guests at Park District and School District facilities. Thank you in advance for your cooperation.

The Frankfort Park District understands the frustration around the mask wearing and that many of us have Covid fatigue. The Park District will continue to enforce the State mandate for indoor mask wearing. Program participants were made aware of the policies upon enrollment. The Park District continues to closely monitor the State mandates. We look forward to the time when we can return to being indoors without masks. We ask for your patience as we continue to monitor the situation and work with our risk management team on any future changes to our mitigation plan.

Thank you in advance for your patience and understanding.
