

Splash Park Closure Policy

The Frankfort Park District wants everyone to have a safe and fun time at the Splash Park! However, there may be times when we need to close the park for the day. Here are a few reasons why that might happen:

- There's lightning in the area or severe weather on the way.
- It's a *chilly day (below 72°F)*.
- There aren't enough visitors to keep things running. ***Please note: The Splash Park will close 30 minutes early, if there are no visitors utilizing the Splash Park.***
- We're experiencing a mechanical or chemical issue.

We always make these decisions with your safety and comfort in mind. Thanks for understanding — and we'll see you back at the Splash Park soon!
